

Three Consulting Products

Tailored to the company's starting position, stage of development, and strategic needs

1 Risk Mapping

Basic due diligence tool

FOR WHOM

Companies that need to meet regulatory requirements (CSDDD, CSRD/ESRS, national laws) and reporting obligations, and that value a professional approach to human rights risk management

FOCUS

Systematic identification and assessment of human rights risks across stakeholder groups.

Rationale for consulting

Entry point into human rights due diligence; meeting legal obligations.

2 Maturity Assessment

Compact format for assessing the current stage of development

FOR WHOM

Organizations with human rights-related activities that want to assess their stage of development against the state-of-the-art and derive next steps for action.

FOCUS

Assessment of the maturity level per topic area – identifying the most effective levers for further development.

Rationale for consulting

Wish to establish a clear base line and a basic roadmap; in a lean format.

3 Human Rights Matrix

Comprehensive Management Tool

FOR WHOM

Organizations that want to manage human rights strategically and sustainably – with a comprehensive human rights strategy and appropriate tools of implementation.

FOCUS

Complete mapping of human rights responsibilities, into priority levels, combined with analysis of gaps and positive contributions

Rational for consulting

Need for guidance for deepening integration of human rights responsibilities.

Increasing strategic depth
